Easy Valve Access

BEYER BOX

Over time, you run into buried meter set valves, inaccessible valves or threaded fitting buried below grade. The Beyer Box offers a simple solution to those valve problems.

Features

- Establishes and protects access to the meter set valve
- Eliminates the high cost to raise the service line and riser
- Installation is simple and fast, and a one-person job
- Minimizes disturbance to existing landscape
- Establishes a safe installation with access to valve
- Optional cover to offer long-term protection
- BOX DIMENSION: 16" x 16" x 8"

Part Number	Description
GARB16X16	Box & Lid
GARB16X16B	Box Only
GARB16X16L	Lid Only

Installation

- 1**
Install the beyer box around gas riser & screw sealing strip to box.

- 2**
Core drill lid at riser position. Use cutting tool to slot lid. Blend lid into position.

- 3**
